

INSURANCE SOLUTIONS

Building Insight™

Set better limits, avoid coverage gaps and improve pricing accuracy

A key component of our commercial risk assessment and valuation platform, Commercial Express®, Building Insight™ improves commercial building ITV accuracy, consistency and automation throughout the underwriting process.

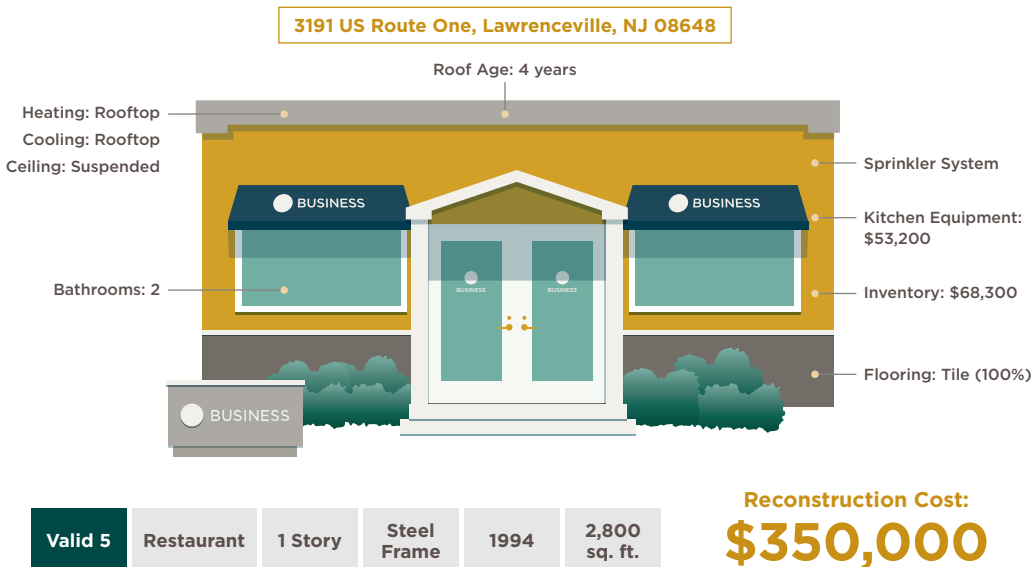

Leveraging our proven and trusted commercial construction costs, Building Insight helps insurers:

- ▶ Mitigate financial risk by improving pricing accuracy
- ▶ Avoid reinsurance penalties by providing critical pieces of information
- ▶ Assure property owners are adequately covered
- ▶ Produce commercial building and agricultural ITV calculations with confidence

Our Research Process Sets Us Apart

Our total component approach to collecting and analyzing construction cost data reflects an unparalleled depth of research and understanding about the commercial property industry. In fact, CoreLogic® construction data is written into law in over 30 U.S. states.

Building Insight calculates accurate ITV amounts for commercial and agricultural buildings.
