

CoreLogic's ordering system is based on the address formats recognized by the United States Postal Service (USPS). If the address format you submit with your order is not congruent with the information stored in the USPS database, we revise the address format to match the USPS listing. To expedite delivery and ensure the accuracy of your completed flood certifications, we developed this document that illustrates how to appropriately enter address information when ordering our flood compliance products.

Street Endings (ex: Lane, Road and Drive): Abbreviate	
Example: 11902 Burnet Road	Enter: 11902 Burnet Rd
Directionals (ex: North, Southwest and West): Abbreviate	
Example: 1492 East Columbus Court	Enter: 1492 E Columbus Ct
Ordinals: (ex: First, Second and Third): Use numeric values	
Example: 1500 Second Street	Enter: 1500 2nd St
Street Endings (ex: Lane, Road and Drive): Abbreviate	
* Entering more than four units or using any combination of odd/even units incorrectly alters the address by causing the second field of numbers to populate as an incorrect apartment or unit number	
1300 - 1306 Park St	Correct
1300 - 1308 Park St	Incorrect: Range exceeds four units. Our system standardizes this address as 1300 Park St # 130
1300 - 1303 Park St	Incorrect: Range includes both odd and even numbered units. Our system standardizes this address as 1300 Park St # 1303
Apartment / Suite / Unit Numbers: Add to the end of the address	
Example: 331 1G Harrison Ave	Enter: 331 Harrison Ave # 1G
Example: 331 Harrison Ave Apt 1G	Enter: 331 Harrison Ave # 1G
County and State Road Names: Spell out all county and state roads	
15812 CR 15	Enter: 15812 County Rd 15
13487 SR 23	Enter: 13487 State Rd 23

- Because the addresses in our system are based on the USPS formats, we may alter an address to match the USPS database to quickly render a determination on the property address you submit.
- For example, in small towns without a post office, the USPS may address the property to a larger nearby city, where mail is sent and received. The map to the right illustrates an example of this situation; the property on Riverside Rd. in Derby, ME is addressed out of Milo, ME.
- Visit www.usps.com and access the USPS "find a ZIP code" option to learn more about address standardization.
