

API Solutions

Flexible, Powerful, On-Demand Integration

Harness the strength of industry-leading property data and analytics in real-time to drive your websites, apps and software.

CoreLogic® transforms raw property data into high-value information, analytics and services—and makes it all available via a comprehensive and easy to use set of RESTful APIs.

Delivers Data

- ▶ Precisely **WHAT** you want
- ▶ Right **WHEN** you want it
- ▶ Exactly **WHERE** you want it
- ▶ Just **HOW** you want it

CoreLogic API Solutions can deliver CoreLogic property data exactly where, when, and how clients would like in a secured, faster, and universal way with low-friction client engagement model.

Whether you are in real estate, mortgage finance, insurance, technology or the public sector, we are a market leader for your property data and insight needs.

Try it out today with our 30-Day Free Trial:

Limited to 100 property data API calls per day

Access to nationwide, live CoreLogic data

*Additional terms and conditions may apply.

CoreLogic has the following APIs available (as of March 2019):

- ▶ Property Search By Address
- ▶ Property Search By Owner Name
- ▶ Address Autocomplete (Type Ahead)
- ▶ Property Detail Report
- ▶ Ownership Information
- ▶ Building Characteristics
- ▶ Location And Site Information
- ▶ Tax Assessment
- ▶ Automated Valuation Models (AVMs)
- ▶ Homeowners Association (HOA)
- ▶ Flood Zone
- ▶ Comparable Properties
- ▶ Sales Transactions History
- ▶ Mortgage Transactions History
