

Rental Property Solutions

Leasing Manager

Cloud-Based Online Leasing Workflow Solution with Electronic Application and Lease Execution

Leasing Manager from CoreLogic® redefines the applicant lifecycle with a streamlined and personalized application that is fully mobile optimized. It also integrates and can co-exist with other major property management software providers.

The Workflow Your Team Needs

With Leasing Manager, property operators outsource the data entry to the applicants, allowing prospective residents to:

Apply for a Lease

Complete Resident Screening

Secure Renters Insurance

Submit Electronic Payments

Productivity Meets Design & Point Solutions

STREAMLINED WORKFLOW

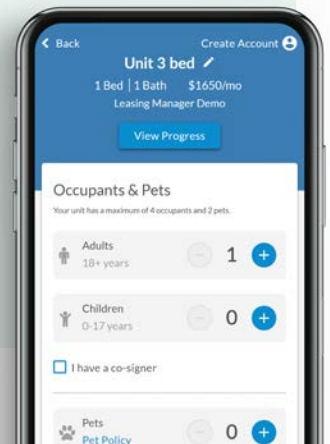

Facilitates the application through to lease execution—without intervention from leasing professionals.

INTUITIVE ONLINE DESIGN

The workflow is segmented into smaller sections for easier completion.

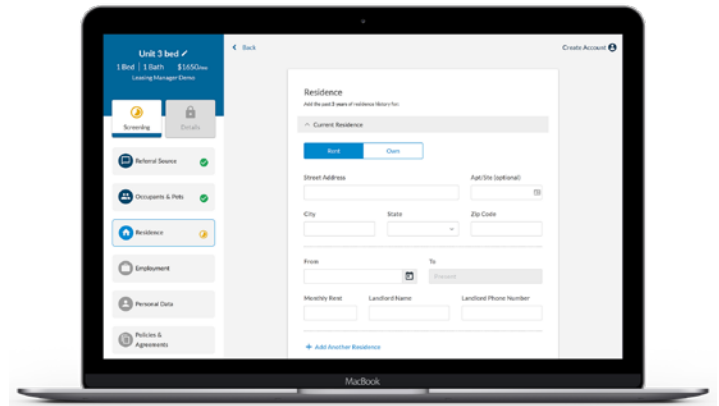

ALL-IN-ONE SOLUTION

Multiple solutions are integrated with property management solutions, creating a paperless office.

Ease of Use Applicants Expect

Applicants get committed early in the process because we only collect the basic information necessary for screening.

The Trusted Resident Risk Management Solution You Rely On

Leasing Manager automates access to best-of-breed point solutions including screening, renters insurance, forms and online payments, helping operators mitigate risk.

APPLICATION

Property managers enjoy workflow configurability to set the experience for their application process.

RESIDENT SCREENING

Renter quality scores generated by the CoreLogic statistically-validated scoring model enable a rankordering of applicants, informing the selection.

DIGITAL LEASING

Applicants can submit a lease online on their own terms, without the limitations of leasing office hours.

ONLINE PAYMENTS

With the CoreLogic Payments™ integration, it's now even easier to use and accept credit cards and e-checks online.

PROPERTY MANAGEMENT EFFICIENCY

Applicant acknowledgment of community policies helps to avoid surprises and reduces leasing team intervention.

RENTERS INSURANCE

The workflow reinforces the lease requirement, offers easy access to a preferred insurance provider and increases adoption—a win-win for property owners and future residents.

PRECONFIGURED TECHNOLOGY

Applicant data, payments, screening results, insurance selection and forms acknowledgement are preconfigured to flow into property management software without the need for IT support.

MARKETING LEVERAGE

Advertising investments can be optimized by identifying marketing lead sources.

YOUR 24/7 LEASING PROFESSIONAL

24x7 leasing means leases advance even when the office is closed.
