# CoreLogic Teletrack Collections and Recovery

Increase Recovery Rates. Reduce Costs. Save Time.

Utilizing CoreLogic Teletrack data-driven solutions can help you increase recovery rates, control cost, and improve efficiency. Our sophisticated data matching techniques help lenders locate hard-to-find debtors and then provides insights to help negotiate fair payment terms with them.

**UNIQUE, HIGHLY  
PREDICTIVE DATA**

**SOPHISTICATED DATA  
MATCHING TECHNIQUES**

**TOOLS TO HELP INCREASE  
PROFITABILITY**

## PeopleLocator

With PeopleLocator, you will receive a steady stream of new and cost-effective information on skips. This valuable information is delivered to you securely and in real-time, increasing the probability of collecting on these accounts.

## DebtorTrace

DebtorTrace uses sophisticated data matching techniques to identify and compare a debtor's reported phone and address to your existing contact information.

## BackHit™

BackHit alerts you when a consumer that has previously charged-off an account with you applies for credit with another credit grantor. This alert provides you with information about the applicant and the merchant where the consumer applied for credit.

## MergeHit™

When you report a charge-off, MergeHit will return information of where the consumer has applied for credit within the last 45 days. Information returned includes key contact information for the applicant and the inquiring merchants. Merge Hit helps you with information you need to contact your "skip" accounts for payment.
