

CoreLogic®

CoreLogic® Teletrack®

Smarter Decisions. Reduced Risk.
Greater Profits.

In a rapidly evolving alternative credit data marketplace, it is increasingly important for lenders and credit issuers to discover new market segments, make smarter risk decisions, and grow their business throughout the credit lifecycle.

CoreLogic® Teletrack® has innovative, data driven solutions that can help you with:

Customer Segmentation

Grow Your Business Throughout the Credit Lifecycle

Prescreening and Prequalifying with alternative credit data helps you target the right prospects, with the right offer, at the right time.

This drives higher response rates, more qualified leads, and a more profitable bottom line.

- ▷ Retro Append
- ▷ Prescreening
 - ◆ Prescreen List Processing
 - ◆ Prescreen Extracts
- ▷ Prequalification

Customer Acquisition

Insights that Help You Make Smarter Lending Decisions

Drive your proprietary models and maximize their predictive power, while detecting fraud and reducing the risk of losses with solutions from CoreLogic Teletrack.

CREDIT EVALUATION

Drive your proprietary models and maximize their predictive power with one of the nation's largest database of thin-file, unbanked, and under-banked consumers.

- ▷ Credit Reports
- ▷ Traditional Credit Reports and Scores
- ▷ OFAC Activity Report
- ▷ Credit Variables
- ▷ Military Lending Act Review
- ▷ Risk Modeling
- ▷ Banking Data
- ▷ Bankruptcy Data

FRAUD DETECTION

CoreLogic Teletrack can help you detect potential fraud by flagging conditions that may require further verification—before they turn into losses.

- ▷ Identity Verification
- ▷ Compliance and Fraud Attributes
- ▷ Fraud Scores

Portfolio Management

Increase Customer Retention. Grow Your Revenue.

CoreLogic Teletrack solutions can help you increase your customer retention efforts by efficiently managing your portfolio, and driving new revenue by identifying promising up-sell or cross-sell opportunities to existing customers.

- ▶ Account Monitoring
- ▶ Portfolio Review

Collections and Recovery

Increase Recovery Rates. Reduce Costs. Save Time.

Our sophisticated data matching techniques help lenders locate hard-to-find debtors and then provides insights to help negotiate fair payment terms with them.
