

Print and Ship Services

Focus on your portfolio. Leave the processing to us.

PUT AN END TO THE PAIN OF PROCESSING.

Compliance changes. Low productivity. Unhappy customers. Your team can encounter all kinds of obstacles when they manually process a myriad of loan documents. Why not take a different approach?

With Print and Ship Services from CoreLogic®, you can help reduce your processing costs while taking important steps to comply with due diligence and information security requirements. You'll also preserve your printing and shipping continuity by leveraging our east and west coast printing facilities with operations running 24 hours a day, 6 days a week.

Monitor

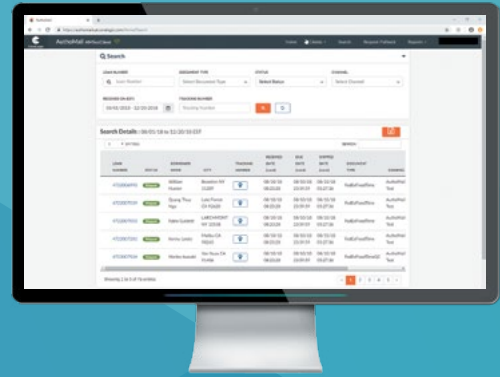

YOUR ONE-STOP AUTOMATED PRINT SHOP

No matter how large your volume of loan documents, we give you a customizable solution. That means color or black-and-white printing; single- or double-sided copies; custom folding and envelope insertion. Not to mention document merging. Your documents can be delivered anywhere in the nation at any volume – all according to your specific requirements.

WITH REAL-TIME MONITORING AND REPORTING

Monitor the status of your processing in real-time with the AuthoMail™ web portal. Every order is time stamped when we receive it, and loan disclosure documents are time stamped when they're sent out. You have proof of exactly what you're disclosing and know about any errors right away.

No stress. All secure.

THE CUSTOM CONNECTION. AT YOUR PACE.

Print and Ship Services can connect directly into your LOS and safeguards all transmissions with technology that helps meet information security requirements. Or we can set up an SFTP and sweep all the data whenever it's most convenient for you.

Features

- User-friendly navigation with customized dashboards
- Intelligent Memory Barcode (IMB) tracking to nearest post office
- Integrates with Federal Express and USPS to add tracking data. Can also be integrated with your Loan Origination System (LOS)
- Electronic delivery with e-signature option
- Centralized batch file reporting and automated posting to FTP
- XML transmission with customizable fields

Print and Ship Services can be set up in a matter of weeks. By working with us, you'll improve your efficiency by empowering your team to focus on what they do best.

Benefits

Keep your customers informed

Enjoy the convenience of customized workflows

Ensure completeness via data validation

Enable compliance with information security and loan disclosure requirements

Get granular with loan level postage reporting

EASY. EVEN AT HIGH VOLUME.
