Matrix Mobile
Introduction

Welcome

Whether you’re a seasoned veteran or brand new to Matrix™, we’d like to welcome you to version 7.0.

Matrix is mobile friendly, cross-browser compatible and has long been considered, by many, the most intuitive MLS software available today. However, like most new learning curves, there may sometimes be confusion along the way. Well, you can relax and consider this manual your personal guide to help get you to where you need to be in the quickest, most productive, way possible.

The Matrix team is always looking for new ways to improve an agent’s user experience. Whether developing efficiency-rich features or creating in-depth training tutorials, we are committed to bringing the best out in you.

A few things you should know.

Matrix is currently used by over 600,000 real estate professionals. However, because no two MLS’s, or Associations, are exactly alike, some of the fields, data and images used in this guide may differ slightly from the system that you’re currently working on. Rest assured, however, that the concepts are the same and that you will easily recognize the ones used here with those of your own.

Secondly, Matrix is an online MLS software system so you must be using an active Internet connection.

Third, all highlighted fields in Matrix are mandatory and must be completed before you are able to proceed with that feature.

Finally, if after reading this guide, you’re still unclear about anything, we invite you to check out the video tutorials found in the, “Agent Support” section at www.corelogic.com/matrixhelp.

Enjoy.

The Matrix Team
NEW in this Guide

The following items have been added, or enhanced, since the Matrix 6.12 Quick Start Guide:

1. **Header & Footer Templates**: Matrix 7.0 has enhanced how you brand your printed material and public-facing web presence. With larger banner sizes, more images to choose from plus the ability to upload your own custom background, it's easy to create your own, unique identity.  

2. **Portal Profile**: Previously known as the, “Portal Information” section, creating a Portal Profile allows you to include additional information about yourself on the Client Portal as well as your Agent Webpage.  

3. **Portal Notification Settings**: Get notified by text or email when a contact interacts with their Client Portal in a variety of ways. Perfect for the Agent who wants to stay on top of the needs of their customers.  

4. **New Client Portal**: completely redesigned from the ground up, the new Client Portal is wrapped in a modern interface and uses responsive design to automatically adjust to fit any device or screen resolution. For additional information on the Client Portal, watch the short, introductory video: [https://youtu.be/9vBoHKnmKql](https://youtu.be/9vBoHKnmKql) or view the Portal Quick Start Guide: [http://www.corelogic.com/product-media/asset_upload_file973_51420.pdf](http://www.corelogic.com/product-media/asset_upload_file973_51420.pdf).
