INDUSTRY ALERT

January 26, 2012

Update: Use of 2010 Census Information

As described in a previous [Industry Alert](#), the Federal Financial Institutions Examination Council (FFIEC) announced that 2012 reports under HMDA and CRA should use the 2010 census data. CoreLogic® has completed the transition and is providing the 2010 data along with newly ordered flood determinations for lenders that order census data from us. The census data provided to you on flood determinations ordered prior to 2012 will remain unchanged. If you received census data on an older flood determination, but certain loan activity requires that you report 2010 census data, then you can either order a new flood determination with census or you can order a "census only" determination.

Should you have questions about receiving 2010 census data from CoreLogic, you may contact the Account Coordinators at 800-447-1772 or acctcoord@corelogic.com. For questions related to your compliance needs, you may contact the Compliance Department at 800-447-1772 or floodcompliance@corelogic.com.

We will continue to keep you informed of important updates related to these developments. Feel free to forward this alert to colleagues who may be interested in [receiving](#) our *Industry Alerts*.
