INDUSTRY ALERT

January 11, 2012

Use of 2010 Census Information

As a leading provider of property location information, CoreLogic® provides census tract data on our completed flood determinations to many lenders with compliance obligations under the Home Mortgage Disclosure Act (HMDA) and the Community Reinvestment Act (CRA). Recently, the Federal Financial Institutions Examination Council (FFIEC) announced that 2012 reports under HMDA and CRA should use the newly released 2010 census data. We are finalizing the transition to the use of the 2010 census information in our system. The transition will be complete later this month which will permit lenders to meet reporting and analysis obligations in accordance with 2012 HMDA and CRA data collection and reporting requirements. Once the change is completed, the updated census information will be available for the loan transactions conducted in the interim.

Should you have questions, you may contact the Compliance Department at 800-447-1772 or floodcompliance@corelogic.com.

We will continue to keep you informed of important updates related to these developments. Feel free to forward this alert to colleagues who may be interested in [receiving](#) our *Industry Alerts*.
