

INDUSTRY ALERT

March 12, 2015

Additional Opportunity to Comment on SFHDF

FEMA issued a [Notice](#) in the Federal Register announcing the submission of their proposed [draft](#) of the Standard Flood Hazard Determination Form (FEMA Form 086-0-32) for the required review and approval by the Office of Management and Budget (OMB). Submission to the OMB initiates an additional public comment period with a deadline of April 6, 2015. FEMA states in the Notice that they have made changes to their initial [proposal](#) in response to the comments received, including returning the SFHDF to a single page form.

Given this additional opportunity to provide comments on the SFHDF, we encourage you to consider the impact that FEMA's current proposal would have on your business processes, including an adequate implementation period to update your systems with the new SFHDF, and to consult with your Legal and Compliance Departments on providing any feedback to FEMA that you may have. Finally, please contact our Compliance Department at floodcompliance@corelogic.com if you would like to discuss the SFHDF or any other compliance topic.

Feel free to forward this alert to colleagues who may be interested in receiving this information. Individuals may also subscribe to future *Industry Alerts* [here](#).
