

## Industry Alert

December 8, 2017

### NFIP Extended to December 22

Congress passed a Continuing Resolution last night which serves to extend the NFIP until December 22, 2017. The law serves as the mechanism for the continued funding of the federal government but does not make any reforms to the NFIP. Given the need for Congress to take further action prior to December 22, you may consider working with your government affairs department or appropriate trade association on outreach to Congress in support of the program and a further extension or reauthorization.
