

ProScan SSN

Automated SSN verification directly through the SSA

ProScan SSN gives you direct, reliable access to the Social Security Administration (SSA) for exact verification of your applicant's name and Social Security Number (SSN). ProScan SSN saves you time by delivering accurate verification results, while helping you meet fraud and compliance requirements quickly and conveniently.

Reliable, fast verification

Unlike other SSN verification providers, ProScan SSN is an online solution that lets you verify applicant SSN data in minutes.

- ▶ Applicant Name
- ▶ Social Security Number
- ▶ Date of Birth

Simple to use

Using the convenient online document upload feature, simply upload your signed and dated consent form (Form SSA-89), then key in the corresponding applicant information in the data fields available and click "submit". The SSA will verify in minutes whether or not the information you provided matches or does not match with the SSN data they have on file.
