

# Matrix™ Client Portal

## Personalized Client Collaboration Websites

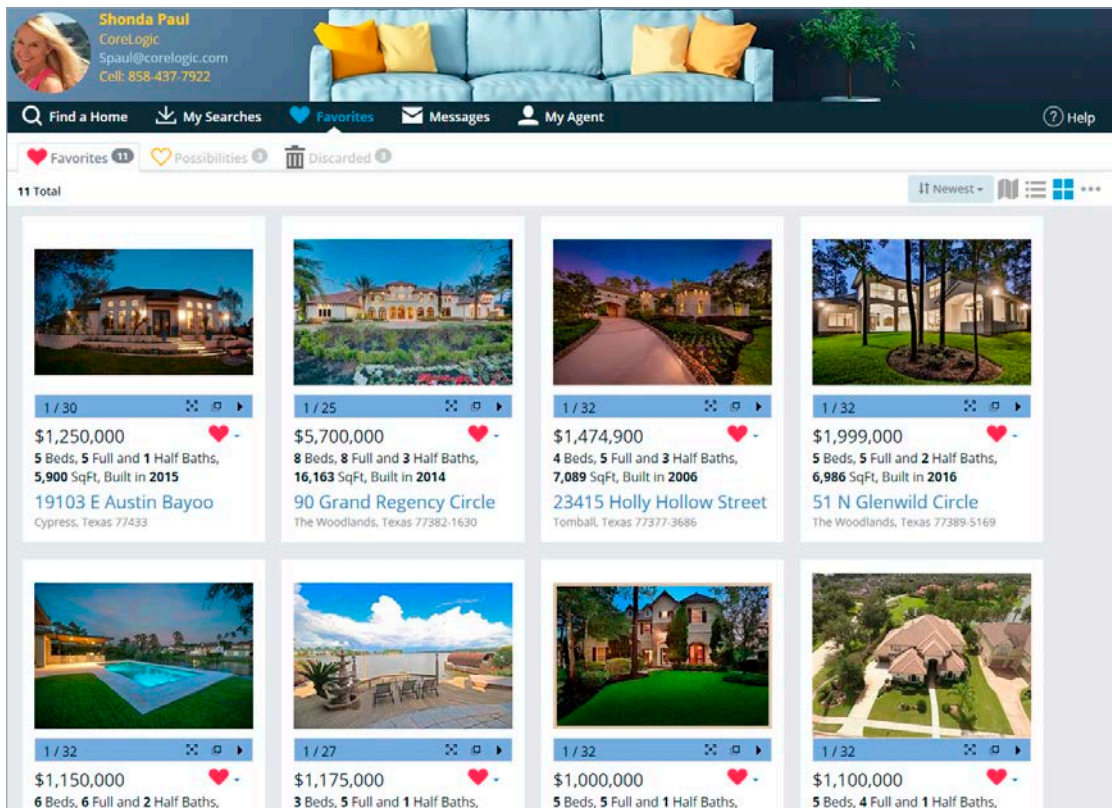

The Client Portal in Matrix™ provides you with stunning private client websites that let you personally brand the information delivered to each individual client. The portal serves as a powerful communication tool by allowing clients to categorize listings according to their level of interest, as well as log conversation notes between you and them. Your clients can further customize their Portal experience by creating and saving searches of their own. The fully responsive design displays beautifully on all devices, which allows your clients the freedom to access the sites on a computer, tablet or smart phone.

## MULTIPLE LISTING TECHNOLOGY

### Highlights:

- ▶ The Client Portal has three great views—Interactive Split Screen Map View, List View, and Gallery View.
- ▶ Photos display beautifully for listing presentations—simply click on a photo to launch to flip through all the photos for a property.
- ▶ Clients can mark listings as Favorites, Possibility or Rejects. The Favorites page shows all the client's top picks, so you can quickly spring into action to organize showings.
- ▶ The property notes are two-way dialogs, so you can keep track of what they like and don't like about the individual properties. The Message page conveniently displays messages and property notes for quick and easy reference by you and your client.
- ▶ Clients can access any searches that you've set-up in Matrix for them (manual and auto-notification), and they can save their own searches.

## Setting up your Client Portal in Matrix is Easy!

Be sure to review the portal settings found under My Matrix in your Matrix system. To configure your new header, go to the Header & Footer tab to view a library of brand new headers. Choose a header that suits your brand and personality or upload your own.

Under the Portal Profile tab, you can customize your portal's "My Agent" page which provides more information about you, including your photo, contact information, bio, video, and slideshow of your current listings.
