

## Roof IQ™ for Contractors

Where Opportunity and Efficiency Emerge

### Get to Damaged Roofs First—with Reports and Pricing in Hand

High-tech tools are making businesses faster, more efficient and more profitable than ever before. When severe weather occurs, time is of the essence, and knowing exactly when and where storms hit is critical if you want to be the first on the scene. Roof IQ™ from CoreLogic® provides valuable insights for contractors and suppliers at every stage of the roofing process. The ability to efficiently deploy resources and get to damaged homes faster, with real time information in hand, will give you the competitive advantage you have been looking for.

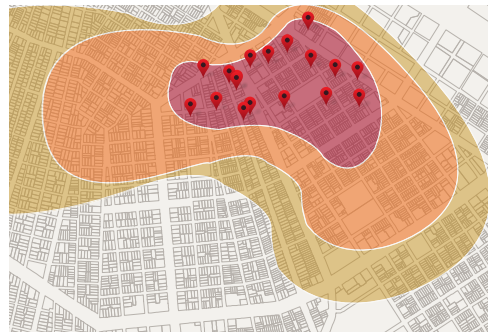

### Roof IQ Gives You an Edge in a Single Software Workflow:

- ▶ Delivers hail and wind storm alerts to your inbox within hours of impact to increase catastrophe response
- ▶ Provides interactive maps to define the scope and extent of damaging weather events so you can precisely target impact areas
- ▶ Accesses qualified sales leads with address specific property and ownership data of properties impacted by damaging weather
- ▶ Supplies tools such as SkyMeasure™ aerial roof measurement reports to help you produce the accurate estimates needed to build work orders
- ▶ Tracks every process from storm awareness to delivery and installation to ensure contractor, supplier and customer satisfaction
