Matrix™ X Quick Start Guide

Introduction

Welcome

Whether you’re a seasoned veteran or brand new to Matrix™, we’d like to welcome you to Matrix™ X.

Matrix™ is mobile friendly, cross-browser compatible and has long been considered, by many, the most intuitive MLS software available today.

For those who may struggle, however, we have created this manual to help get you to where you need to be in the quickest, most productive way possible.

Since the release of Matrix™ 8.4, our team has continued working hard to improve upon the user experience. Whether developing efficiency-rich features or creating in-depth training tutorials, we remain committed to bringing the best out in you.

Matrix™ Desktop Compatibility

Matrix™ X is compatible with the latest browser versions supported by mainstream operating systems. Operating systems and browsers such as Windows XP, Windows Vista and Internet Explorer 8 and 9 (IE8, IE9) are no longer in mainstream support. Anyone using a previous version of these browsers will see a warning at login to encourage upgrading. Browser-related issues that can’t be resolved by upgrading to the latest version will be reviewed and resolved on a priority and best-effort basis. CoreLogic will support upgrades to browsers as soon as reasonably practical following availability of the new browser version in new retail computers.

Desktop users who choose to use Internet Explorer (IE) on Windows 7 and Windows 8 can upgrade to IE11. Windows 10 users can use IE11 or Edge Browser. Firefox and Chrome automatically update to their most recent versions regardless of underlying operating system. Matrix™ supports the following desktop browsers:

- Internet Explorer 11 and Edge Browser
- And the most recent versions of:
  - Safari
  - Chrome
  - Firefox
  - Android Browser
  - Chrome Mobile
  - Safari Mobile
Matrix™ Mobile Compatibility

iPad and Android tablet users should install the most recent version of their browser.

Matrix™ Mobile supports the following browsers:

- iOS Safari
- iOS Chrome
- Android Browser
- Android Chrome

Defects reported against other mobile platforms will be fixed on a best-effort basis.

A few things you should know.

Matrix™ is currently used by over 750,000 real estate professionals worldwide. However, because no two MLS’s or Associations are exactly alike, some of the fields, data and images used in this guide may differ slightly from the system that you’re currently working on. Rest assured, however, that the concepts are the same and that you will easily recognize the ones used here with those of your own.

Secondly, Matrix™ is an online MLS software system so you must be using an active Internet connection.

Third, all highlighted controls in Matrix™ represent mandatory fields that must be completed before you are able to proceed with that feature.

Finally, if after using this guide, you’re still unclear about anything you read, we invite you to check out the video tutorials listed in your system’s, “Help” section or found under, “Agent Support” near the bottom of corelogic.com/matrixhelp.

Enjoy.

NEW in this Guide

What’s New in Matrix™ X

OneHome

1. The Client Portal has been upgraded to a platform now called, OneHome.

2. **Client Service Providers:** agents and brokers can enter their preferred Mortgage, Insurers and Home Remodel/Repair/Maintenance service providers to display to their contacts within the OneHome Marketplace. ................................................................. Page 22

3. **Property Fit preferences:** see how the contact answered questions about their ideal property. These answers are displayed per-email address, giving the agent insight into possible differences of opinion between spouses, even though both are within a single contact record. .................................................. Page 9

4. **Property Fit scores:** when viewing listings associated to the contact (i.e. in “View As” mode) the Property Fit score of each listing is displayed, again per-email address for those contacts who are more than just one person. .......................................................................................... Page 42

5. **Planner Status/Activity:** see which buyer and/or seller-related activities each contact has marked off their checklist. ........................................................................................................ Page 9

6. **Client Possibilities:** OneHome simplifies the consumer experience with only a single positive (Favorite) or negative (Discard) category. All listings previously designated as Possibilities are now Favorites. ............................................................................................................ Page 6

7. **Agent Header:** since OneHome no longer displays the header once used in the Client Portal, the Agent Header is now only displayed as a Print Header. Users may still configure their banner, mugshot, branding, and colors just as before, but only a print-width preview of each header is shown. .................................... Page 19

8. **Auto Email BCC Mode:** because OneHome does not support a “BCC Mode” (i.e. viewing inside a contact’s OneHome) all BCC links in the agent copies of auto emails will take the agent directly to the associated search results within that contact’s “View As” mode in Matrix. .......................................................... Page 42

Modern UI

1. **Look and Feel:** though custom color schemes may vary between Matrix systems, the default look and feel of Matrix X now combines modern color pallets, iconography, navigation, with a state-of-the-art design.

2. **Contact List:** existing functionality has been redesigned for improved readability and accessibility. ............ Page 8

3. **Contact Details:** each contact’s record has been expanded from its old accordion-style format to become a new, dedicated page. Multiple tabs provide accessibility to various information within the contact profile, and new widgets provide insights into the contact’s use of OneHome. .................................................. Page 9

4. **Matrix Notifications:** a new “Notifications” icon in the Matrix header provides a central location for alerting the user to important information such as Concierge Alerts. .................................................. Page 6

5. **Utility Menu:** located in the header by clicking the user’s name, the, “Utility Menu” provides access to the user’s personal Settings, Help section, Team Member switching and Logout. ........................................... Page 18

6. **Settings:** in addition to moving its access to the user’s Utility Menu, the Settings page itself has been given a new look. ................................................................................................................................ Page 18
360 CMA

1. **Combined Searches:** while Matrix already includes a public records search, listing and tax data are now combined into a single CMA Comparables search containing the latest data for all properties in the market—not just MLS listings. .............................................................. Page 15

2. **360 Comps:** automatically generate 360 Comps with a single click from any property in the system. Twenty comparable properties selected for their proximity and similarity—which are current or recent listings or sales—help instantly provide a value guideline.

3. **Design:** all report pages within the 360° CMA share a consistent, modern design. Overall content mirrors the existing Matrix CMA, but with a fresh, clean look.

4. **Complete Data:** data shown with each property can include a mix of listing and tax data—providing a broader view of property information.

360 Map

1. **Map Layers:** Matrix 360 now offers a set of new Status and Tax Data map layers which provide immediate visualization across the entire market by displaying a small color-coded pin within the parcel of all properties of a certain status, regardless of the current search criteria. .............................................................. Agent Webpage: your own professional webpage that’s integrated with IDX search functionality and hosted on the Matrix™ web server.

Activation

1 Select the, “Enable Agent Web Page” radio button to activate your webpage and allow visitor access. Click the, “Disable Agent Web Page” option to prevent visitors from accessing your site.
The, “Web Page URL” is the address where visitors will find your site. You may update your name in the textbox provided (alpha numeric characters only. No spaces.).

**NOTE:** this is the URL that you will share with others (if you prefer to use your own domain name, see, “Additional Domains” below).

Add a, “Web Page Title” that will appear in the browser’s tab.

### Homepage Content

Add a, “Title” that will appear above the content on your website’s “Welcome Page”.

Click inside this area and use the associated, “Rich Text Box” buttons to add, “Content” to your webpage.

Select which profile information you would like to include from the, “Portal Profile” section.

**NOTE:** for more information, see “Portal Profile” under, “My Information” in the, “Settings” section.

### Map Area

Configure how the map should be used on your website.

**NOTE:** for more information see, “Map Area” under, “Settings>IDX Configuration” in the, “My Matrix” section.

### Other Options

Select this checkbox if you would like to include a Sign-Up form for your website visitors then add an optional, “Sign-Up Message” (welcome or, perhaps, informational).

**NOTE:** visitors who submit this form will appear in the, “Contact Requests” widget on the Matrix™ Homepage (see, “Contact Requests” under “Home Widgets” in the, “My Matrix” section).

### Additional Domains

If you currently own a domain name and you would like to use it to replace the default, “Web Page URL” (see above) in the Address bar, simply add your domain in the textbox provided then click the, “Add” link.

**NOTE:** you must ask your domain registrar to redirect visitors from your domain to your Agent Web Page (your domain registrar is the company that sold you your domain name). If you administer your own domain, you must set up the redirection yourself. Simply forward your domain to your website at the, “Web Page URL” (see above).

### Save

Click, “Save” on the Button Bar to save your work and, if enabled, activate your website.

**NOTE:** preview your site before going live by clicking the, “Preview” button.

**NOTE:** view your live site by clicking the, “View Site” link that will temporarily appear below the Matrix™ menu.

Matrix™ X Quick Start Guide

Search

Criteria Search

1. From the Matrix™ navigation menu, hover the Search tab.
   NOTE: clicking on the Search tab displays a page with all available search forms.

1a. From the dropdown list, select the desired Property Type (e.g. Residential, Commercial, Land, Tax, Cross Property etc.) search to run.

2. From the Criteria tab, enter your search criteria.
   NOTE: enter exact price if (000’s) checkbox is unselected or not available.
   NOTE: select multiple listbox options by clicking an item while holding down the, CTRL (Windows) or Control (Mac) key.
   NOTE: select the, “And” radio button for results that contain all the selected item(s). Select the, “Or” radio button (default) for results that contain any of the selected item(s). Select the, “Not” radio button for results that contain none of the selected item(s).

2a. Click the, “Map Search” link (Map Search) to include/exclude specific map areas to/from your search.
   NOTE: the map can also be accessed via the Map tab or Map button on the Button Bar.
   NOTE: manually enter a distance or use the preset options to isolate all properties within a specific radius.
   NOTE: for more information, see, “Map Search” under the, “Search” section.

2b. Add/remove additional fields that did not initially appear on the search form.

2c. Click the, “Settings” icon to save the current criteria as the new default criteria that loads each time this search form is used.
Select an action on the **Button Bar**.
- **Clear**: removes all current search criteria.
- **Count-on-the-fly**: displays a real-time number of matches based on the current search criteria.
- **Map**: switches view to the Map tab and displays properties based on the current search.
- **Results**: switches view to the Results tab and displays properties based on the current search criteria.

### Map Search

1. Click the **Map** tab.

1a. **Zoom** in (+) to or out (-) of your desired location.

   **NOTE**: click and drag the map to reposition an area.

   **NOTE**: if your search criteria generates between 500 and 5000 results, click on a map cluster to display the (indicated number of) listings for that area.

1b. Click the, “Settings” icon to set the map’s current position as the new default location.

1c. Use the, “Jump to Address” dropdown list to quickly locate a specific map area.

1d. Use a combination of map tools to isolate areas on the map, clear shapes, view map layers or re-center the map.

Speed Bar Search

1. Enter **Speed Bar Shortcut criteria** into the textbox.

   **NOTE:** since each system define their own default Speed Bar shortcuts, the intention here is simply to illustrate general guidelines around entering the criteria.

   **NOTE:** click the Speed Bar help icon for a list of commonly used system shortcuts.

   **NOTE:** the Speed Bar automatically populates each time a search is run with criteria entered in the, “Criteria” tab. Hover over the, “other criteria” checkbox (if visible) to view any criteria used that has not been defined as a system Speed Bar shortcut.

   **NOTE:** create a custom Speed Bar shortcut to use criteria that has not been defined as a system Speed Bar shortcut (for more information, see the, “Speed Bar Shortcut (Create)” section.

   **NOTE:** When using bedrooms and bathrooms together in the same Speed Bar search, bedrooms must be first (i.e. 2+ bedrooms and 3+ bathrooms would be written: 2+ 3+). Also, searching for multiple statuses, the statuses must be grouped together. Otherwise, system Speed Bar shortcuts can, typically, be entered in any order.

2. Click the **search icon** to generate a search.

**Speed Bar Shortcut (Create)**

1. Create a **search**.

2. From the, “Results” or “Map” tab, click, “**Save**” > “**New Speed Bar Shortcut**” on the Button Bar.

3. Create a **custom name** for your new Speed Bar Shortcut.

   **NOTE:** name must always be preceded by a forward slash (i.e. /lakeside).

   **NOTE:** name may not include spaces, symbols or punctuation.

4. Click, “**Save**”.

**Speed Bar Shortcut (Use)**

1. From anywhere in the Speed Bar textbox, **enter your custom Speed Bar Shortcut name**.

   **NOTE:** name must always be preceded by a forward slash (i.e. /lakeside)

   **NOTE:** Speed Bar Shortcut may be combined with other Shorthand criteria.

2. Click, the Speed Bar “**Search**” icon.
Recent Search

1. From the, “Recent Search” dropdown list, select a previously run search to generate.
   - **NOTE:** displays up to 50 of your most recent searches.
   - **NOTE:** unused searches are automatically removed after 1 week.
   - **NOTE:** each list item contains search criteria and the number of results that were generated at the time of search.

INRIX Drive Time™

Included as an option in some Matrix™ systems, INRIX Drive Time™ allows agents to isolate listings that are located within a certain driving distance of a specific address.

1. Choose any method to **generate your search results**.

Settings

An Auto Email, by default, automatically sends a client new, or updated, listings at whatever interval is selected in the, “Schedule” option.

Enable, “Concierge Mode” if you would prefer to review (approve or reject) each listing first before they are sent to the client (optional).

NOTE: when Concierge is enabled, click the, “Also send me the alert notifications by email” option to be notified, by email, that there are listings waiting for your approval in Matrix.

NOTE: Matrix™ alerts you of any new matches in the, “Concierge” Widget on the Homepage (for more information see, “Concierge” under, “Home Widgets” in the, “Home” section,) as well as on each page, in the information bar, located just below the menu tabs.

Click the, “Reverse Prospecting” checkbox to allow listing agents to view when their listing has been sent to this customer.

Note: this feature can also be enabled in the contact’s management area (see, “Contacts (Add)” in the, “My Matrix” section).

Schedule

ASAP: Emails are sent as soon as possible.

Daily: Emails are sent during the days, and time period, selected.

Monthly: Emails are sent on the first day of the month.

NOTE: Auto Emails that are not read within a system-specified period of time are automatically suspended until re-enabled by the agent.

Click, “Save” to create this Auto Email.

NOTE: if, “Concierge Mode” is enabled, this button takes the agent to the Concierge area where listings can be accepted or rejected.
Concierge Mode

1. In the auto email’s, “Settings” section, click the checkbox to enable, “Concierge” mode.

   Also send me the alert notifications by email: when checked, Matrix™ will alert you—by email—when new/updated listings that match the criteria have been added.

   Additional: enables the selected, “Additional display” for this client in OneHome.

   Show this contact in Reverse Prospecting results: when checked, allows the listing agent to see that this (anonymous) client has been sent their listing.

   Enable as a Favorite Search on Homepage: when checked, adds this search - for quick access - to the Homepage Favorite Search widget.

2. Click the, “Go to Approvals” button to save this auto email’s settings and proceed to the Concierge’s approval page.

3. Select which properties to approve or reject.

   Folder: displays an icon if the property has already been favorited or discarded by this client

   Emailed: displays the date that the property had previously been emailed to this client.

4. Select an action.

   Done: closes the Concierge without rejecting or approving any properties. These properties can be later accessed via the Notification icon in the Matrix™ header or the Concierge widget located on the Homepage.

   Reject: removes the selected properties from being sent to this client.

   Approve Selected: emails the selected properties to this client.

   Print: prints the selected properties using the selected print display.

   Directions: creates driving directions using the selected properties.

   Carts: adds the selected properties to this – or another - client's cart.

**View As:** displays if/when each property in the results was previously sent to the selected contact. Also displays a Fit Score—representing how much of a match the associated property is with the selected contact’s on-boarding questions answered in their OneHome’s, “Planner” section.

**Narrow:** displays only the selected properties (click the, “Original Results” breadcrumb link (located below the Speed Bar) to return to all properties).

**Discard:** removes selected properties from the results (click, “Un-Discard” to undo this action).

**Sort:** sorts the results into groups according to the sort fields chosen.

Save

**New Saved Search:** saves your search criteria to use again for a general search or for a specific contact. You may also include your search as one of 10 favorites on the, “My Favorite Searches” Homepage widget (access all saved searches under, “My Matrix > Saved Searches”).

**New Auto Email:** automatically sends listings, based on the search criteria, to a specific contact at scheduled times (for more information, see, “Auto Email (Create)” in the, “Auto Email” section).

**New Speed Bar Shortcut:** creates a custom Speed Bar Shortcut based on the current search criteria to use in the Speed Bar. Access all saved Speed Bar Shortcuts under, “My Matrix > Settings > Speed Bar Shortcuts” (for more information, see, “Speed Bar Shortcut (Create)” in the, “Search” section).

Carts

**Select Cart:** a collection of available carts to select.

**Add to:** adds the selected properties to the selected cart.

**View:** displays the properties contained in the selected cart.

**New Cart:** creates a new, custom cart associated with a specific contact.
Input

Listing (Add New)

1. From the Matrix™ navigation menu, click the, “Input” tab.
2. Click the, “Add new” link.
3. Choose the appropriate Property Type form.
4. Choose how to fill the Property form.
   
   **Fill From Existing Listing:** fill the form from an existing listing. Search by listing number or search for a pre-existing Cross Property listing from which to Fill (for more information, see, “Criteria Search” in the, “Search” section).
   
   **Fill From Tax:** fill the form using information such as a tax number. If multiple tax results are returned, simply select which tax year you would like to fill from.
   
   **Start with a blank listing:** fill the form beginning with empty fields.
5. Using the **Input Wizard**, fill the Property form as required.

**NOTE:** input wizard section names may vary depending on the Matrix™ system.

**NOTE:** all highlighted Matrix™ Input fields are mandatory and must be completed before you are able to submit the listing.
Choose a method to map your listing then visually verify that the property pin is in the correct location.

Get Lat/Long from address: automatically links the map pin with the property address entered on the Input form.

Set Lat/Long manually: from the map popup, enter the property address or zoom + – to find the exact location to drop the property pin.

Choose Google Street View: position how this property should appear from the street view.

Select an action on the Button Bar.

Save as Incomplete: saves your listing—as is—and redirects to the, “Add New Photos and Supplements” page (see, “Photos and Supplements (Add New) in the, “Input” section for more information).

Validate: if errors exist (such as empty, required fields), they can be viewed by clicking the error link located above the Button Bar and will be identified in each section with an, “Alert” icon △.

Cancel Input: cancels the form process and returns to the, “Add New Listing” page.

Submit Listing: submits this new/updated listing to the system.

Photos and Supplements (Add New)

After your listing has been submitted live or saved as incomplete, you may add photos and/or supplements.

From the Button Bar, click, “Add/Edit Photos” to add listing photos.

Click the, “Browse” button to locate the listing photos on your hard drive then drag your cursor over multiple images (or CTRL and click individual images) to select the ones you would like to upload.

NOTE: maximum number of photos vary depending on your system.

NOTE: for best quality, upload photos that are at least 1024x768 pixels.

Once listing photos have uploaded, click any thumbnail to enlarge the image and add a photo description (optional). Click the, “Done” link when finished, followed by, “Save” on the Button Bar.

NOTE: thumbnails outlined in red indicate the image dimensions are smaller than recommended.

Click and drag the thumbnail, “Slot: [#]**” to reorder the photos as you would like them to appear in the listing.

NOTE: the, “Primary slot” indicates which image will display as the Primary photo on the listing.

Click, “Save” when complete.
From the Button Bar, click, “Add/Edit Supplements” to add listing supplements (also known as, “Attachments”).

2a Enter the listing supplement information.

**Supplement Description:** describes the listing document (optional).

**Select File:** browse your hard drive and select a document to upload (accepted file types vary between systems but may include .pdf, .doc, .docx, .txt, .rtf).

2b Click the, “Upload” button to upload this supplement to the listing.

2c Click, “Save” when complete.

From the Button Bar, click, “Continue Editing” to return to the Input Wizard.

---

**Listing (Edit Existing)**

1 From the Matrix™ navigation menu, select the, “Input” tab.

2 **Choose a listing to edit** either by clicking the, “Edit existing” link, by selecting a listing from the dropdown list or by entering a listing number in the textbox.

3 **Select which part of the listing to edit.**

   **NOTE:** click the Property Type link (i.e. Residential, Commercial etc.) to edit any of the fields from the listing.

   **NOTE:** click the, “Manage Photos” link to update listing photos.

   **NOTE:** click the, “Manage Supplements” link to update listing supplements.

4 When your listing has been updated, click, “Submit listing” on the Button Bar.

---

**Auto Save**

1 Matrix™ automatically saves new listings after several minutes if:
   a. no keyboard input is detected
   b. you navigate away from the Input screen
   c. you switch between Input wizard sections

2 The Auto-Save Recovery screen will automatically be displayed immediately after you next sign into Matrix.

   **Restore:** click the, “Restore” link to return to the auto-saved listing and continue from where you left off.

   **Discard:** click the, “Discard” link to discard any auto-saved changes to the listing and close the auto-save recovery screen.

   **Skip:** click, “Skip” on the Button Bar to close the auto-save recovery screen (the auto-save recovery screen will once again display the next time you sign into Matrix).
Matrix™ Mobile

Matrix™ Mobile is designed as a light, versatile solution to quickly access the system’s most essential functions.

Enter your **Search Criteria**, scroll to the bottom of the page and click the, “Search” button.

*NOTE:* in the, “Area” textbox, enter an area name such as, “Los Angeles Southwest” (or its numeric equivalent, “C34”). To search multiple areas, simply separate values using a comma (i.e., “C34, 276” or, “Los Angeles Southwest, Highland”).

*NOTE:* click the, “Calendar” icon to add a date, or date range, to your search.

*NOTE:* expand any panel with a, “Open” icon to enter additional Search Criteria.

Click the, “Email All” link to send all listings to one, or more, recipients.

*NOTE:* separate email addresses, in the, “To” textbox, a comma.

*NOTE:* enter a mandatory email subject line.

Click the, “Map” icon link to view all listing on the map.

*NOTE:* by default, only results of less than 100 listings will display on the map.

*NOTE:* on the map, click the, “down” arrow to reveal map display options.

*NOTE:* on the map, click a listing pin to view the listing details.

Select a listing to view the listing details and functions.

Click a listing function.

Email: click the, “Email” button to email this listing to one, or more, recipients.

Cart: click the, “Cart” button to add this listing to a cart.

Map: click the, “Map” button to view where the listing (identified by the large icon) is located on a map.

Click the primary, “Listing Photo” to display all listing images.

**My Matrix**

1. From the Home Page, select, “My Matrix” to access client information and settings.

2. From the, “My Matrix” page, click, “Contacts” to view a contact’s details (including, saved “Auto Emails”, “Saved Searches” and client portal preferences).

   *NOTE:* from the, “Contacts” page, click the, “Add New” link to add a new contact.

3. From the, “My Matrix” page, click, “Saved Searches” to access “Saved Searches” and client portal preferences.

   *NOTE:* select a saved search to view the results or change its criteria.

4. From the, “My Matrix” page, click, “Auto Emails” to view the auto emails you have created.

   *NOTE:* select an auto email to view the results, change the criteria or display the new listings since the last time you ran this search.
5. From the, “My Matrix” page, click, “My Listings” to view your listings.
   
   **NOTE:** select a listing to view the listing details and functions.

---

**Carts**

1. From the Home Page, select, “Carts” to view a list of all current carts.
   
   **NOTE:** a cart is automatically created each time a new contact is added to the system.
   
   **NOTE:** see #7, under, “Search” in the Matrix™ Mobile section, to add a listing to a cart.

---

**Hotsheets**

1. From the Home Page, select, “Hotsheets” to view the Hotsheet for each property type.

---

**Concierge**

1. From the Home Page, select, “Concierge” to view all auto emails with listings waiting for your approval.
   
   **NOTE:** the concierge option, highlighted in yellow, will only appear if there are listings currently waiting for approval.
   
2. Approve all listings in an Auto Email by clicking the, “Approve All” link or access listings to, “Reject” by clicking the, “[number of] listings” link (i.e., 13 listings).
   
   **NOTE:** to reject a specific listing, select the listing then click the, “Reject” button.
   
   **NOTE:** once all rejected listings have been discarded, click the, “Approve and Send All” link to send all remaining listings to your Auto Email recipient.
Tips and Tricks

Home Widgets

Prefer your Homepage Widgets were organized differently?

- Click a widget header then hold and drag it to a new position on the page.
- Click to close the widget and to minimize it.

**NOTE:** all closed widgets can be found in the, “Additional” Widget.

Market Watch

Looking for real-time changes in your Market?

- Click the, “Refresh” link to view up-to-date activity for the selected property type(s) during your chosen timeframe.

Not interested in displaying the activity for the entire system?

- Click the, “Customize” link to only show activity in the market that you specify for each Property Type.

**NOTE:** for more information, see, “Market Watch (Customize)” under, “Home Widgets” in the, “My Matrix” section.

Hot Sheets

You have multiple customers who are each interested in different areas of your market. Would you like to see the activity in each of those areas separately?

- Simply customize each Hot Sheet to only show the activity in a specific customer’s area.

**NOTE:** for more information, see, “Hot Sheets (Customize)” under, “Home Widgets” in the, “My Matrix” section.
Criteria Search

Are you constantly having to add the same criteria to many of your searches?

💡 Save commonly-used criteria as a default so that each time you use that search form, your saved criteria has already been entered.

Too many unused criteria fields cluttering up your Search Form?

💡 On systems where available, create your own custom Search form by adding only the Additional Fields that you typically use most often.

Want to quickly add a date, or date range, to your search?

💡 Use the following date shortcuts to avoid using the calendar.

<table>
<thead>
<tr>
<th>Specific date (MM/DD/YYYY):</th>
<th>08/23/2018 (August 23, 2018)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Before a specific date:</td>
<td>07/24/2018-</td>
</tr>
<tr>
<td>After a specific date:</td>
<td>07/24/2018+</td>
</tr>
<tr>
<td>Date Range (dynamic):</td>
<td>10-20 (between 10 and 20 days ago)</td>
</tr>
<tr>
<td>Last 31 days:</td>

Have a customer who’s looking for property within a certain distance of a particular point-of-interest?

☀ From a criteria form, enter a distance, and the POI address, to isolate all listings within the specified range.

Map Search

Have a customer who’s looking for property within a certain distance of a particular point-of-interest?

☀ From the map, enter the POI address in the “Jump to address” textbox, click “Enter” then, starting near the location marker, use the radius tool to draw and isolate all listings within your preferred range.

Need to determine the distance between 2 map locations?

☀ Click the, “Ruler” link (bottom-left corner of map) then click on the first location while dragging your cursor to the second location. Release.

Tired of having to constantly reposition the map to an area that you typically search most often?

☀ Replace the default map position by repositioning the map, clicking the, “Settings” icon then saving your current position as the new default.

Bonus Tip: use the, “Jump To Address” dropdown list to quickly navigate to system-preset areas of the map or back to your default position.

Do you have multiple properties to select on the map?

☀ Save time by using, “Single Checkbox” icon to quickly select individual properties or the, “Multiple Checkbox” icon to click and drag over many properties at once.
Search Results

Want to use a different default display when generating search results?

💡 From the search results, choose your preferred Display from the dropdown list then click the, “Settings” 🔄 icon to set it (plus the current sort order and, “per page” count) as your new default.

Do you, or your customer, only want to view certain information printed on your Agent Single Line?

💡 Customize a Grid by clicking on a column to insert additional fields or resize, reorder, rename and remove the existing ones.

**Bonus Tip:** For future use, name, and save, your Custom Grid by clicking the, “Manage Display” 🔄 icon.

Want to sort results according to distance from a specific point-of-interest?

💡 Use the map radius tool (or Criteria section’s POI textbox) to first isolate the listings within a set radius. Then, from the Single Line Results Grid, click the, “Distance” column header to sort how far a listing is located from the center of your radius.
Looking to quickly create a simple search or change your current criteria on-the-fly?

Use a combination of system, or custom, Speed Bar shortcuts to find results fast.

**NOTE:** the following list of shortcuts represent the original Matrix™ defaults. Click the Speed Bar Help icon to view shortcut names that may be specific to your system.

Want to do a Speed Bar search using a shortcut that doesn’t yet exist?

Create your own custom Speed Bar shortcut in 3 easy steps:

1. From any criteria form (or map), use the “Clear” icon to clear everything.
2. Define what you would like to make a Speed Bar shortcut then, from the Button Bar, click, “Results”.
3. From the Button Bar, click, “Save” > “New Speed Bar Shortcut” then name your Speed Bar shortcut (beginning with a forward slash (/) and no spaces).

NOTE: use your custom Speed Bar shortcut as you would any system Speed Bar shortcut.

Recent Search

Forgot to save an important search, but you don’t see it on the, “Recent Search” dropdown list?

Click the, “View All” link - at the bottom of the list - to display a complete list of your most recent 50 searches.

NOTE: unused searches are automatically removed after 1 week.

Contacts

Need to organize your contacts into specific groups?

From your contacts, click to edit a specific contact then, from the category dropdown list, select a system category or add them to one of your own.

Use the, “filter” option to only show contacts belonging to that group.

Has a listing agent just run a Reverse Prospecting search and now contacted you with the reference number identifying one of your customers?

Find the contact fast by entering their reference number into the, “Search” box above your contact list.

Are your customers actually looking at the content you send?

Quickly view if—and when—a specific customer last visited their Portal under the, “Last Portal Visit” column then click the, “Portal Activity” section to view a breakdown of their most recent activity.

Want to clean up your contact list?

Hide inactive contacts by selecting a name from the list, then click the, “Set Inactive” button.

Click the, “Show Inactive” button to view or unhide names.

NOTE: customers with enabled Auto Emails cannot be set to, “Inactive”
Saved Search

Tired of looking for a specific contact’s saved search?

Organize saved searches better by associating each of them with a specific customer.

Then, when looking to run a saved search, find it quickly in a specific contact’s management section. For a commonly used saved search, consider including it as one of your 10 Favorites in the, “My Favorite Searches” Widget on the Homepage.

Want to quickly convert a Saved Search into an Auto Email?

From a Saved Search’s Settings page, click the, “Turn this Saved Search into an Auto Email” link. Configure the Auto Email as required.

CMA

You’ve just run a search and found Comparables that you’d like to use in a CMA.

From the Button Bar, click, “CMA” to immediately pull all selected properties into a brand-new CMA.

**Bonus Tip:** to collect Comparables from multiple searches, click the, “Carts” tab on the Button Bar then, “Add to Cart” to add the selected properties to a specific contact’s Cart. When you’re ready to create a CMA, click the Comparables step of the CMA Wizard, then, from the Button Bar, click the, “Add from Cart” button to load the selected properties.

Want to create a collection of CMA templates to use with different groups of clients?

Start a new CMA, then, from the, “Start” step of the CMA Wizard, name your template accordingly in the, “Description” box (i.e. Template #1).

From the, “Pages” step, select which pages you’d like to add as well as any other steps to include that define this template. Click the, “Save” icon.

Repeat for each new template.

When generating a new CMA for a customer, simply select any template from the available CMA’s then click the, “Copy the selected CMA” button to duplicate. Open the copied CMA and, from the, “Start” step of the CMA Wizard, select a contact’s name then rename your CMA in the description. Continue building this CMA without affecting the original template.
My Listings

Want to include the same Results Button Bar functionality with your own listings?

From the, “My Listings” page, click the, “Click here to run this as a Full Search” link to view all available Search Results Button Bar options to use with your own listings.

Want to know how many hits your listing has received since, perhaps, a recent price decrease?

From the, “My Listings” section select, “My Hit Counters” from the dropdown list then click an associated value link to see the activity during the specified time period.

Settings

My Information

Looking for an easy way to create your own custom branding for free?

Use www.canva.com to create stunning banners (and more).

It’s as simple as building an image in Canva, saving it to your computer then uploading it to Matrix.

**NOTE:** CoreLogic is not affiliated with Canva.

Email Signature

Want to include an image, from the web, in your email signature?

From the, “Email Signature” tab of the, “My Information” section, click the, “Image” icon to add the url of the image stored elsewhere on the web.

Custom Displays

Want to quickly build a custom Single Line Grid Display?

Rather than add, remove and re-order Grid columns one-at-a-time within the grid itself, why not manage multiple fields together by choosing to customize your Grid from the, “Custom Display” feature found in the, “Settings” section.
Stats

You've just generated some results and would now like to see some statistics based on the same criteria you used in the search.

Rather than clicking the, “Stats” tab and having to retype your criteria all over again, simply select the, “Stats” button from the Results Button Bar then click, “Charts” to pre-populate the Stats feature with your original criteria.

**NOTE:** there must not be any properties selected to use this feature.

Button Bar

**Actions > Print**

Tired of wasting ink?

🌞 Click the, “ink saver” option to remove images from print or select whether to include branding on your printed material. Finally, when printing Full Displays with tabs, select only the tab(s) that you’d like to see printed.

**Actions > CMA**

🌞 See, “CMA” in the Tips and Tricks section of this Guide.

**Actions > Directions**

Want to include a scheduled stop for lunch or, perhaps, another event during your driving tour?

🌞 From the Driving Directions page, add custom locations to your journey by clicking the, “Add Start” (or, “Add Stop” button), type in a name and address then click and drag the new location to reorder it in the list.

**Refine > Narrow**

Did you just narrow your search results but now want to return to the original list?

🌞 Simply click the original search name in the breadcrumb located above your results.
Save > New Saved Search

See, “Saved Search” in the Tips and Tricks section of this Guide.

Save > New Auto Email

Want to send your customer additional property information that may not be included in one of the Portal's default Displays?

See, “Button Bar > Actions > Email” in the Tips and Tricks section of this Guide.

Need to remove specific properties from being sent in an Auto Email ... but don’t want to enable Concierge?

First, generate a search then select the listings that you’d like to filter.

1. To remove the selected listings from ever being sent with this Auto Email in the future, click, “Refine” on the Button Bar, then click, “Discard”. With the listings now removed, click the, “Save” tab then click, “New Auto Email. Configure as desired.

2. To send future Auto Email updates on just the selected listings, click, “Refine” on the Button Bar, then click, “Narrow”. With only the narrowed listings remaining, click the, “Save” tab then click, “New Auto Email. Configure as desired.

Carts > Add to Cart

Want to add CMA Comparables from multiple searches?

Add selected properties from each Comparables search into a customer’s Cart. When you’re finally ready to create their CMA, from the, “Comparables” step of the CMA Wizard, click the, ‘Add from Cart’ button and choose which properties you’d like to use.
Input (Add/Edit)

Are you listing a property that’s similar—or the same—as one you’ve listed before?

🌟 From the Input section, select the, “Fill from” option to pre-populate the Input form with many of the same fields used in your previous listing.

Multiple Tabs

Want to run multiple searches at once while, perhaps, building a CMA at the same time?

🌟 Though not officially supported by Matrix, most modern browsers allow users to right click and open a link in a new tab or window. To multitask in Matrix, right-click any of the Matrix™ menu items then select to open that page in a new window or tab.

**NOTE:** you cannot input multiple listings, in multiple tabs/windows, at the same time. Only add 1 listing at a time.

Tired of having to constantly type the Matrix™ login page URL into your smartphone?

🌟 Why not add a Matrix™ quick-launch icon to your mobile device’s home screen.

**Android**

1. From your device, open the Chrome browser and navigate to your Matrix™ login page.
2. Tap on the three dots in the upper-right corner. This will open a menu. In this menu, click the “Add to Home screen” option.
3. Name your shortcut (i.e. Matrix™ Login).
4. Click, “Add”.

**iPhone**

1. From your device, open the Safari browser and navigate to your Matrix™ login page.
2. Tap the “share” button on your browser’s toolbar. This will open a menu. In this menu, click the “Add to Home screen” option.
3. Name your shortcut (i.e. Matrix™ Login).
4. Click, “Add”.
