

Xcelerator

Improve turn times and customer experience

An appraisal scheduling solution

Xcelerator is an appraisal inspection scheduling tool designed to drive faster turn times and an improved, transparent experience in the appraisal process.

Reduce appraisal cycle time by engaging borrowers, real estate agents and builders early in the lending process, while providing greater visibility to appraisal status. Now customers and appraisers can collaboratively set appraisal appointment dates and times, without having to download any new applications to assist with the process.

Xcelerator is a digital mortgage-ready solution that is focused on providing greater accessibility to the scheduling process.

How Xcelerator works

Reach property contacts through simple anytime, anywhere appraisal scheduling. The property contact or real estate agent xcelerates the scheduling process through a streamlined process:

- Borrower/Property contact immediately proposes appointment date & times
- Appraisers receive requested inspection times and can work the best time into their schedule
- Loan officers can follow status of appraisal from any network or mobile device
- The property contact knows who the appraiser is before they arrive
- The property contact receives a 24-hour reminder about the appointment

How Xcelerator streamlines your appraisals

Scheduling happens quickly, will reduce turn time by up to 3 days. Appraisers often have incorrect or incomplete contact information which makes it difficult to schedule an appointment – Xcelerator confirms information upfront. Missed phone calls between the appraiser and the property contact – process is not dependent on phone call. Quick communication allowing a borrower to choose a preferred date and time for the appraisal, increasing their commitment to the lender.

Benefits of using Xcelerator

Proposes date and time for appointment
Effortless, no change to current process
Keep up with status of the appraisal from any network or mobile device
No application needed
