

Near Real-Time Tax Solutions, Every Step of the Way

CoreLogic® is unifying and transforming the residential property tax industry through our innovative digital solution—Digital Tax Portal™. By leveraging near-real-time data across the loan life cycle, Digital Tax Portal provides greater access to data, while fundamentally transforming both the level of transparency available to tax servicers and the automation and accuracy of tax payments.

Whether a servicer has five loans or millions of loans in their portfolio, CoreLogic provides clients with reliable property tax data from the very beginning of the loan origination process.

Customer Experience

CoreLogic goes beyond basic property tax services to help ensure compliance with tax requirements and authorities, allowing clients to increase loan quality through more reliable data.

Accuracy

Tax servicers depend on CoreLogic to solve one of their biggest challenges—gathering accurate data—so they can focus on creating a positive customer experience for homeowners.

Performance

Improve performance across the portfolio by leveraging national coverage, technology infrastructure and accurate, near real-time data.

Automation

Through automation and greater access to near real-time property data, servicers can speed up workflows and increase homeowner transparency, without sacrificing quality.

Functionality for Every Servicer

CoreLogic offers services that meet the needs of each unique client. From large banks to local credit unions, CoreLogic delivers comprehensive tax solutions and unmatched customer service every step of the way.

- **Tax Payments Made Easy:** Easily manage payment processing, balance and delivery of tax payments from a single source.
- **Comprehensive Escrow Reporting:** Provide more complete tracking and reporting for more than 22,000 tax authorities.
- **Transparent Delinquency Reporting:** Monitor the payment status of loans with greater insight—and greater confidence.
- **Efficient Tax Line Building Services and Advanced Search:** Leave data sourcing and quality assurance checks to CoreLogic and ensure all your parcels are correctly identified with our enhanced search process, so you can focus on creating a positive borrower experience.
